

Job Posting: ERP Implementation Associate

ABOUT US

VistaVu Solutions is a leading business management software provider - with experience, tools, and sector-specific software solutions to help well servicing, oilfield product manufacturing, distribution, construction and rental companies better manage their business processes and grow profitably.

We are currently one of the top SAP software providers to the oil & gas industry in North America. As a team, we're dedicated to helping our customers become more efficient so they can effectively manage their business management processes and accelerate profitable growth.

OUR PURPOSE

To make good energy service companies great. We do this by driving efficiencies through these companies with our industry relevant software and our award winning staff.

OUR GOAL

To become the dominant SAP provider to small-medium enterprise oil and gas product/service companies in the world. We need you to help us get there.

ROLE DESCRIPTION

VistaVu is recruiting an ERP Implementation Associate for our Calgary office. Reporting to the ERP Project Manager, the successful candidate will bring a strong technical skill set, positive can-do attitude, excellent communication, consulting skills and a proven track record of success for this position. They will be self-motivated, have excellent attention to detail, and be exceptional at managing client expectations and relationships.

ROLE RESPONSIBILITIES

- Meet a personal invoiceable bill-out rate of no less than 82.5%
- Perform hands-on delivery of no less than 1 fully completed project per quarter
- Follow VistaVu's 15-step implementation guidelines
- Manage and complete all assigned projects - on-time and on-budget, and that meet quality expectations for role

CANDIDATE QUALIFICATIONS

- Post Secondary Degree in Information Technology
- A minimum of 3 years experience in the Information Technology industry, in a consulting role
- At least 1 year experience with implementing ERP systems
- Hands on experience and familiarity with both Microsoft SQL Server and SQL

- Experience managing client expectations and ensuring delivery of products and services to exacting specifications
- Experience providing end-user training and support
- Proven track record of on-time/on-budget and quality delivery
- Familiarity with all facets of standard business practices and processes.
- Familiarity with standard systems analysis practices and processes combined with an ability to see the big picture to deliver accurate scoping documents and time estimates
- Familiarity with Microsoft Server and Client based Operating Systems
- Exceptional technical and statistical troubleshooting ability
- Ability to build strong relationships with both clients and staff

Special consideration will be given to candidates with the following skills/experience:

- Experience working with and/or implementing SAP Business One, Great Plains, Navision, Global Shop or a similar product
- Familiarity and/or experience in the Oil & Gas services industry
- Familiarity with GAAP
- Working towards or having already achieved an official accounting designation, or having experience with accounting fundamentals and principles

If you think this is a role that you would be successful in performing, please send your resume with 'ERP Implementation Associate - Calgary' in the subject line to careers@vistavusolutions.com

Thank you for your interest. Only candidates selected for an interview will be notified.
