

Job Posting: ERP Implementation Associate

ABOUT US

VistaVu Solutions is a leading business management software provider - with experience, tools, and sector-specific software solutions to help well servicing, oilfield product manufacturing, distribution, construction and rental companies better manage their business processes and grow profitably.

We are currently one of the top SAP software providers to the oil & gas industry in North America. As a team, we're dedicated to helping our customers become more efficient so they can effectively manage their business management processes and accelerate profitable growth.

OUR PURPOSE

To make good energy service companies great. We do this by driving efficiencies through these companies with our industry relevant software and our award winning staff.

OUR GOAL

To become the dominant SAP provider to small-medium enterprise oil and gas product/service companies in the world. We need you to help us get there.

ROLE DESCRIPTION

VistaVu is recruiting an ERP Implementation Associate for our Houston office. Reporting to the ERP Project Manager, we are searching for an individual with strong account skills and practical experience administering or implementing financial systems for small to mid-sized businesses. The successful candidate will bring to this role a confidence in configuring software solutions, delivering training and deploying new system solutions for multiple client projects at a time.

ROLE RESPONSIBILITIES

- Achieve a personal invoiceable bill-out rate of no less than 82.5%
- Perform hands-on delivery of no less than 1 fully completed project per quarter
- Follow VistaVu's 15-step implementation guidelines
- Manage all assigned projects to successful on-time on-budget and quality completion

CANDIDATE REQUIREMENTS

- Certified Accounting Designation or equivalent industry experience to provide a strong understanding of accounting principles
- At least 1 year experience implementing ERP systems
- Familiarity with all facets of standard business practices and processes. Hands on experience and familiarity with both Microsoft SQL Server and SQL

- Experience managing client expectations and ensuring delivery of products and services to exacting specifications
- A proven track record of on time on budget on quality delivery
- Familiarity with standard systems analysis practices and processes combined with an ability to see the big picture to deliver accurate scoping documents and time estimates
- An ability to build strong relationships with both clients and staff
- Strong skills in Microsoft Excel with manipulating large data file and writing formulae
- Exceptional technical and statistical troubleshooting ability
- Fluent in English as this role will involve training users and writing process documentation
- Experience providing end-user training and support.
- Ability to travel both in Canada and the US (up to 40% of the time)

Special consideration will be given to candidates with the following skills/experience:

- Experience working with and/or implementing SAP Business One, Great Plains, Navision, Global Shop or a similar product
- Familiarity and/or experience in the Oil & Gas services industry
- Familiarity with GAAP

If you think this is a role that you would be successful in performing, please send your resume with **'ERP Implementation Associate - Houston'** in the subject line to careers@vistavusolutions.com.

Thank you for your interest. Only candidates selected for an interview will be notified.
